"How far apart are the contractions?  
Well, she had one in the den  
and one in the kitchen.  
So I guess they're about 15 feet apart."

## Kovels

Antiques and Collecting  
by Terry and Kim Kovel

Q: I have a Jacob Josef Kohn chair. It still has its original labels. The cane seat is long ago gone. What is its current value as is? Where should I sell it?

A: Jacob Kohn opened a lumber factory with his son Josef in 1850. As the company, called J. & J. Kohn, grew, they started making bentwood furniture, one of the many furniture innovations of the 19th century. Many well-known European designers worked for them. J. & J. Kohn merged with the Mundus manufacturing group to become Mundus-Kohn in 1914. Today, a single chair by J. & J. Kohn can sell at auction for more than \$1,000. A barrel back chair missing its cane seat sold at a recent auction in Europe for \$2,800. A label always increases the value of antique furniture. A furniture dealer or repairer in your area can help you get more information.

TIP: If you want to keep your collections free from harm, always clean and dust items yourself.

### Serve Berry Delicious Meringues for Mother's Day

I am always looking for a way to showcase the bright colors and naturally sweet tastes of fresh berries. Sliced, whole, or mixed together with a light sauce, they make a quick dessert option when piled high over a scoop of ice cream or a slice of angel food cake.

And for a dependable showstopper, nothing beats topping serving-sized crackly, meringue shells with berries, a dollop of whipped cream, and a sprig of fresh mint from the garden. They look fancy, but they are easy to make, especially when your school-aged kids lend a hand.

Put these "Berry Delicious Meringues" on your Mother's Day menu this year for a memorable celebration! First, make the meringue shells ahead of time.

**BERRY DELICIOUS MERINGUES**  
8-10 servings  
- 3 egg whites  
- 1/4 teaspoon cream of tartar  
- 3/4 cup of sugar

Preheat oven to 275 F. In a large mixing bowl, beat the egg whites until frothy and foamy with an electric mixer set at low speed.

Add the cream of tartar. Increase speed until soft peaks form. Let one of your kids begin adding the sugar slowly, a tablespoon at a time. You'll be amazed to see how dramatically the mixture expands and changes. Once all the sugar is added, keep beating until glossy, stiff peaks form.

Use an ice-cream scoop or large spoon to drop 1/3 cupfuls of the mixture onto a cookie sheet lined with parchment paper. With the back of a spoon or with wet fingers, spread each portion out into 3-1/2-inch circles, building up the sides slightly. You may space them quite close together since they won't rise.

Bake 1 hour. Turn off the oven and leave meringues in the oven with the door closed for an additional 1 1/2 hours. Remove and cool.

To serve, fill with your favorite whole and sliced berries, then top with whipped cream and a sprig of mint or a whole strawberry - stem and all.

Extra Tip: Is Mom a chocoholic? Drizzle some chocolate sauce over the top! Or get fancy like restaurants and make a few simple dots or swirls directly on the plate around the meringue.

**You and Your Favorite Boat Are Invited to  
The Annual Blessing of the Fleet Ceremony**

I'm just going to come out and say what's on my mind and probably on yours as well. What's up with all the rain we've been getting to start the month of May? It seems like it wants to rain almost every day and the Shenango River just keeps running high and muddy, not looking very inviting for a paddling excursion. We all know the old saying, "April showers bring May flowers;" but enough is enough. Because no one says, "May showers bring June (fill in the blank)." Now that I've probably brought your mood down a notch or two with thoughts of all the rain we've been getting, allow me to shift your thinking with what might unofficially be the world's worst Dad joke. OK. Here it is. "If April showers bring May flowers, what do May flowers bring?" If you've heard this joke before, you most likely already went "Aargh." But if you haven't, allow me to share the sad punchline. "What do May flowers bring?" Pilgrims. That's right, the Mayflower brought the Pilgrims to North America. We learned that in school.

Now that I've made you smile, laugh, or just think that is a lot of build-up for a very bad joke, if you're still reading, I have your attention and I want you to know, this rainy weather shall too pass. The Sun will eventually appear, temperatures will warm up, things will dry out, and you're going to start thinking about Summer fun activities. For a whole lot of people, Summer means boating and time on the water. For you, boating may mean a pontoon boat, a fishing boat, a ski boat, a sailboat, a kayak, a canoe, a paddleboard, a cabin cruiser, or a personal watercraft. Regardless of how you like to get out on the water, I want you to mark your calendar for Sat., May 24, 2025. That is Memorial Day Weekend and the beginning of one of the biggest boating weekends of the Summer. A time when everyone wants to be out on their boat!

If you follow the news, you've probably already seen pieces about different churches, pastors, or priests conducting a Blessing of the Bikes for those who ride motorcycles. Well, what you might not know is the Coast Guard Auxiliary conducts an Annual Blessing of the Fleet Ceremony at nearby Lake Arthur, Moraine State Park in Butler County. This year's ceremony is scheduled for Sat., May 24, 2025 at 2 PM at the Davis Hollow Marina. (That's along Lake Ar-

thur's North Shore at the eastern end of North Shore Drive.) Regardless of what type of boat you have or your religious affiliation, you are cordially invited to participate in this inclusive event! If you've never been to a Blessing of the Fleet Ceremony, you might have some confusion over what it is. It is very simple. There is nothing mystical about it. It is a ceremony where local clergy pray over the boaters and their boats, for safety on the water, protection from dangers, and pray for their boats to operate smoothly as they are out on the water this Summer. The Blessing of the Fleet is a maritime custom dating back centuries and is observed by boating communities around the world. It is a blessing of recreational/commercial vessels in a bid to ensure a safe and bountiful season.

The Coast Guard Auxiliary is the uniformed volunteer component of the U.S. Coast Guard and actively supports the Coast Guard in nearly all its service missions. The Coast Guard Auxiliary was created in 1939 by Congress. Following the ceremony, the Coast Guard Auxiliary's trained examiners will be offering free vessel safety checks for any boat owners who are interested. These checks are designed to ensure boats comply with state and federal safety regulations and are equipped with necessary safety gear. What a great way to ensure you and your boat are in compliance when it comes to life jackets (PFDs – personal flotation devices), fire extinguishers, distress signals, and other safety essentials. Keep in mind this varies based on the size and type of boat. The requirements are different for a motorized vessel vs. a sailboat vs. a paddled craft. If you come and have your boat checked, you may learn a thing or two, and it may save you from a warning or worse yet a fine from a PFBC Waterways Conservation Officer in the future. Having a safe and seaworthy vessel is no accident and a great way to start the boating season!

This event is free and open to the public, so even if you don't own a boat, you may want to head over to Davis Hollow Marina on May 24 at 2 PM to observe with your children or other family members/friends. For more information on the Blessing of the Fleet Ceremony or to learn more about vessel safety checks or how you could become part of the U.S. Coast Guard Auxiliary, contact Officer Wes Novotitz (412) 287-0220 or email: [officer64@aol.com](mailto:officer64@aol.com); or Flo-tilla Commander Scott Krizinsky (814) 657-0273 or email: [skrizinsky.uscgaux@outlook.com](mailto:skrizinsky.uscgaux@outlook.com) Safety needs to be every boater's primary concern and being a blessed, safe boater would be even better! Why not come out?

**God Bless, Be Safe, and Great Outdoors!**

# LARRY KEITH FOR JUDGE

FAITH, FAMILY & SERVICE TO OUR COMMUNITY

PAID FOR BY THE COMMITTEE TO ELECT LARRY KEITH JUDGE

## Strange But True

by Lucie Winborne

• People have used dishwashers to clean hats, toothbrushes, sneakers and more. There are even tutorials on how to cook certain foods with a dishwasher.

• Human fetuses have gills, fur and even a tail during development. The tail becomes the coccyx and the "gills," which are temporary slits in the neck, develop into jaw and ear bones, while the fur disappears before birth or within a few weeks afterward.

# The Definition of MOTHER

*Mother is a word we use to identify the one who spent her life making your life happy.*

*Mother is not necessarily the biological mother. Mother is having that loving instinct that is unconditional.*

*Mother is more than words can describe and her face is one you'll always cherish.*

*Mother is an unselfish lady and her family's happiness is far more important than her own.*

*Mother is whom we inherit our qualities of life, our character and disposition... and if lucky enough, her looks.*

*Mother is one who will be there forever...*

*even if it may be her looking down from heaven.*

*Mother is the beginning... and just loving them seems like it is not enough...*

*Thank you MOTHERS a thousand times... for you.*

## Our Daily Bread

### Good Congee

He went down and dipped himself in the Jordan seven times, as the man of God had told him. 2 Kings 5:14

READ

2 Kings 5:1-3, 9-14

Jocelyn's bestselling dish at her food stall was her congee. She'd stir the rice porridge very carefully until it had a smooth consistency. So, she was startled when a regular customer said, "Your congee tastes different. The texture isn't as fine."

Jocelyn's new assistant had prepared it this time and explained why it was different: "I didn't stir it as long as the recipe said since that's how I do it at home. I also added more sesame oil. In my opinion, it tastes better that way." She had decided to ignore the recipe and do it her way instead.

This is how I sometimes respond to God's instructions. Instead of fully obeying His commands as given in Scripture, I subject them to my opinions and proceed my way.

Naaman, the commander of the Syrian army, was on the verge of making a similar mistake. On receiving God's instruction through the prophet Elisha to wash himself in the Jordan so his leprosy would be healed, the proud soldier got angry. He had his own expectations for how his need ought to be addressed, believing his opinion was superior to God's command (2 Kings 5:11-12). His servants, however, convinced him to listen to Elisha's words (v. 13). As a result, Naaman was healed.

When we do things God's way, we experience a peace that's indescribable. Let's work with Him in fulfilling His purposes.

By Karen Huang

How do you allow your opinions to compromise your obedience to God? How does this affect His work in your life?

Dear God, please help me to obey You in full, for Your command far surpasses my opinion.

- The oldest known toilet, in the ancient city of Knossos on the island of Crete, has remained functional for approximately 4,000 years since its construction and was built with a seat and sophisticated drainage system.
- New Order's classic song "Blue Monday" is the best-selling 12-inch single in history. Unfortunately, the band lost money on it since the cost of producing its unique cover was higher than its sale price.

Each numbered row contains two clues and two 6-letter answers. The two answers differ from each other by only one letter, which has already been inserted. For example, if you exchange the A from MASTER for an I, you get MISTER. Do not change the order of the letters.    Answers on Page 11

# NEW WILMINGTON BOROUGH RECYCLING INFORMATION

**Who must Recycle:** All residents and businesses of New Wilmington are required to recycle at their curb. Property managers must provide recycling for housing, condo, or apartment complexes for situations where they arrange for trash disposal.

## Contact:

Tri-County Industries - 724-748-4705.  
Borough Office - 724-946-8167  
<http://www.nwboro.com/trash-recycling>  
<https://www.tricountyind.com/recycling>

**How are Materials Collected:** At your curb. Materials can be mixed together. Each household has previously been issued a blue 95- gallon recycle tote. The recycle cart should be placed at the curb on Wednesday evening by 10:00 PM. Please leave at least 2 feet between the refuse cart and the recycle cart.

**When:** The current schedule can be found on the Borough's website. Recycle collection is currently every other week on Thursday.

**Spring Cleanup:** A spring cleanup is held annually for Borough residential customers. Consult the website or contact the Borough for the schedule.

**Large/Bulky Item Pickup:** Bulky items are collected throughout the year through special arrangements with Tri-County Industries. Contact the borough office to arrange special pickups.

**Leaf & Yard Waste (excluding grass):** Consult the schedule on the Borough website. Leaf waste must be placed in a brown paper leaf bag.

**Christmas Trees:** Christmas trees are collected through January 30th. Trees must be at curb by 7 a.m. on each Monday.

## Electronics and Household Hazardous Waste/Chemicals (HHW):

Electronics and HHW are collected curbside by appointment. Schedule an appointment by:

1. Calling Tri-County Industries at (724) 748-4705 or (800) 457-8202;
2. Email [customerservice@tricountyind.com](mailto:customerservice@tricountyind.com); or
3. On the Web at <http://www.tricountyind.com>.

## Recyclable Materials Collected

- Glass\* food/beverage BOTTLES/JARS/JUGS
- Aluminum
- Steel, and Tin CANS
- Plastic BOTTLES & JUGS
- Corrugated Cardboard, Magazines, Newspapers, Including Inserts
- Mixed Office Paper
- Junk Mail

Only bottles, jugs, cans, and clean paper are recyclable in the curbside program. Do not place materials in plastic bags and do not include any items not listed. Acceptable materials may periodically change so always follow the information provided from your hauler. Businesses must also recycle but may pick the recycling hauler of their choice.

## USEFUL INFORMATION:

Recycling can be confusing because what is accepted as recyclable may be different between hauling companies and communities. Recycling programs are driven by markets and vary from region to region and state to state. Newer residents that move to our community are often surprised by the differences.

### “Wishcycling” and Contamination

Contamination occurs when trash/unacceptable materials are placed in your recycling bin. With wishcycling people mean well, but unintentionally hurt recycling programs by placing the wrong materials into their bins. Examples include plastic toys, food containers, tubing, or buckets. When placed in the recycling bin, these and similar items must be physically removed and then landfilled. It is estimated that up to 20% of the cost of recycling is used to deal with items that should have been placed in the trash. Items that are not listed as recyclable WILL NOT get recycled. This includes plastic bags.

Plastic is the most confusing material because it comes in a variety of forms and resins that are chemically different. People often think that because something is “plastic” that it is recyclable. This is not the case. The same holds true with the “recycling” symbol and number commonly found on plastic items. The purpose of the symbol and number is to indicate the resin type. It has nothing to do with recycling!

Instead, focus on the shape of item. When it comes to recycling, think “plastic bottles/jugs, metal cans, and clean paper.” If you’re holding a plastic item, consider if it is a bottle. For example, butter tubs, yogurt containers, and clam-shell/take-out food containers are plastic and usually have a recycling symbol and number on them. But—they are not a bottle/jug and belong in the trash. When in doubt, throw it out.

### How to Prepare Your Recyclables

A simple rinse of food/beverage bottles and jugs is all that is needed. Cardboard should be flattened and mixed papers (magazines, junk mail, newspapers) can be placed in your bin loosely or in a brown paper bag. Do not put any materials in plastic bags. Plastic bags must be ripped open. And loose bags jam conveyor belts and gears. They are a significant cost to manage when they get into the system and will not get recycled at the recycling center. Many local grocers accept plastic bags for recycling.

**DEAR PAW'S CORNER:** Spring is here, and summer is just around the corner. Can you please remind people that leaving pets in a hot car is a deadly mistake? – Carol in Syracuse, New York  
**DEAR CAROL:** Absolutely. Folks, even if the weather outside is just warm – not hot – the inside of your car can become extremely hot when it's parked in the sun. Even with the windows cracked a bit, the temperature can still rise by 20, 30 and 40 degrees higher than the outside air temperature. So, if it's a balmy 65 degrees outside, the interior of your car can reach 105 degrees or higher – enough to cause heat injury or death for a pet.

That's why 31 U.S. states now have laws banning pets in parked cars. It's why police and even private citizens, in some areas, can smash a car window to save a pet. And it's why pet owners who leave their animal in a parked car may face fines and, in some states, prison. Those laws do not make exceptions

for cars that are left running to keep the air conditioning on. If the car stalls or has an automatic switch-off, the interior will heat up dramatically even on a cloudy day.

So, as we roll into the warm spring months, it's important to have a plan for your pet if you need to take them along for the day. If they can't come with you into the store or the salon, leave them safe at home. ©2025 King Features Synd., Inc.

## Now Here's A Tip

by JoAnn Derson

• "I love to put photos of family on the fridge. But I found that the photos were getting ruined from grease and moisture in the air. To get around that – and to really preserve them – I cleaned and laminated them. Afterward, I hot-glued little magnets to the backs, and now I can move them around to accommodate new photos. There are so many, and it gives me pleasure to look at them." – C.R. in OK

• Save money and be safe. Lower your water heater temperature from 140 F to 120 F. You will save money on heating water, and you will reduce your risk of scalding from hot temperatures.

• If you need to clean stained plastic storage containers or takeout containers that you'll use again, do it with baking soda. Get the item wet, and use a liberal amount of baking soda as a scrub. It's abrasive but gentle, and super safe for food containers.
