## Our Daily Bread

Remaining in Jesus READ Matthew 16:13-19

A fire burned Balsora Baptist Church to the ground. As emergency workers and community members gathered after the blaze subsided, they were surprised to see a charred cross standing upright amidst the smoke and ashes in the air. A fire-fighter commented that the fire "took the structure, but not the cross."

The church is not a building, but a community united by the cross of Christ—the One who died, was buried, and rose again. When Jesus lived on earth, He told Peter He'd build His worldwide church, and nothing would destroy it (Matthew 16:18). Jesus would gather believers from all over the globe into a group that would continue through-out time. This community would face intense diffi-culty, but they'd ultimately endure. God would dwell within them and sustain them (Ephesians 2:22).

When we struggle to establish local churches, when buildings are de-stroyed we can remem-ber that Jesus is alive, actively enabling God's people to persevere. We're part of the church He's building today. He's with us and for us. His cross remains. By Jennifer Benson Schultdt

Founded in 1910, ELLWOOD Group began as a producer of high-quality steel and has grown into a trusted maker of crankshafts used around the world. We build heavy-duty cranks that keep equipment running every day.

We start by melting and refining our own steel, then forge crankshafts to shape using powerful presses. From there, each crank is carefully machined and inspected to meet exact requirements. Our crankshafts are used in tractors, locomotives, pumps, compressors, ships, power generation equipment, and military vehicles like tanks.

For more than 100 years, ELLWOOD has been built on hard work, craftsmanship, and doing the job right—values we continue to pass on to the next generation.

### Exploring the Recently Expanded Ernst Trail in Crawford County

Every once in a while, a song comes out you can really relate to, focusing on a subject not typically sung about. That's how I felt right after Craig Morgan's country hit, "That's What I Love About Sunday," came out in November 2004. It brought back so many good memories as a child of going to church, Sunday dinners, and then doing relaxing things together as a family. I can remember many a Sunday drive on back country roads or visiting a variety of State Parks. When our children were small, Sunday afternoons became a time for me to take our little ones for some "Dad time," so Mom could take a nap and just relax a bit. To this day, I love Sundays and going to church to worship with fellow believers, having a good meal, and then doing something together you often can't do the other six days of the week.

This past Sunday, my wife asked before church, if there was something I wanted to do. Over the years, that's become her way of saying, "think of someplace interesting we can go visit and have fun together." I always have a mental list of places I want to go when the time permits and on the drive home from church I said, "I remember reading last Fall the Ernst Trail in Crawford County was expanded five more miles, so it now reaches from Meadville to Conneaut Lake." If you are not familiar, the Ernst Trail is a rails-to-trails project created in 1996 when local farmer and businessman Calvin Ernst donated the right-of-way of the former Meadville-Linesville Railroad to French Creek Recreational Trails. Calvin Ernst is the Founder & President of Ernst Seeds. One of the largest sources of key native and naturalized plant species for habitat restoration, conservation, and beautification in Eastern North America for 60+ years.

For over 25-years, the paved portion of the Ernst Trail ran from Bean's Trailhead along US-322 (by the Meadville Home Depot) initially south for two miles paralleling scenic French Creek, before turning west and passing the Mercer Pike Trailhead (approx. MM 3.75) and continuing to the Krider Road Trailhead (approx. MM 5.5). There the Ernst Trail went for a short stretch on a paved road before crossing US-19, passing through a mobile home park, and then continuing west on a gravel base to the Bailey Road Trailhead (approx. MM 7), where it previously ended. For the past 15-years, we had walked and biked the initial seven miles of the Ernst Trail numerous times, and while we've talked about it, we've never taken the

time to cross-country ski there when snow was available. Back in September 2025, I saw a news story announcing an additional five miles of gravel trail had been opened to expand the Ernst Trail all the way to Conneaut Lake. This gravel stretch runs from the Bailey Road Trailhead past the Brown Hill Trailhead (approx. MM 9.6) to its current western terminus at the Conneaut Cellars Trailhead (approx. MM 11.75).

From our home, it's under an hour drive up US-18 to the Brown Hill Trailhead. I decided this would be a good mid-point on the newly opened portion of the Ernst Trail and we could go east or west on our Sunday afternoon walk with our dog. The Brown Hill Trailhead has parking for roughly 8 vehicles and a convenient porta-potty. We decided to head east and we're very glad we did. This portion of the former Meadville-Linesville Railroad was constructed on the historic towpath of the Beaver and Erie Canal, which operated from 1844 to 1871. This canal passed through Lawrence and Mercer Counties paralleling the Shenango River. The stretch from Conneaut Lake over to Meadville was constructed west to east, connecting the Shenango River Drainage to the French Creek Drainage, which carried the canal the final 40-miles to Erie. The former canal bed, next to the trail, is filled with water and teeming with wildlife.

Within 200-yards of the Brown Hill Trailhead, we saw the first (and largest) of many beaver dams. There was evidence the dam had recently been breached by humans (to drain it), but the beavers had quickly repaired it with fresh logs, sticks, and ample mud. Trees, logs, and sticks chewed off by the beavers were evident everywhere. We saw dozens of Eastern paint turtles sunning themselves on logs in the canal and the highlight of our trip was watching the aggressive courtship routine of two sizeable snapping turtles (each with roughly 18-inch carapaces), as they rolled and made audible low hisses. Our walk ended up being only 2.6-miles out and back as we spent more time than originally planned to simply wildlife watch. We saw several other friendly trail users walking, jogging, riding bikes, and walking their dogs. The Ernst Trail is definitely worth visiting sometime, because you can combine nature, history, and exercise into one excursion. Then you can possibly stop at Hank's famous Frozen Custard along US-322 for a post outing treat! What a great way to spend a Sunday!
