Outdoor Opportunities By COL (Ret.) Grey D. Berrier II

The Tour de Belt Provides a Wide-Ranging View of Harrisburg from a Bicycle Seat

Do you ever test yourself? There are certain tasks I like to do every year as an assessment of where I stand on strength, endurance, coordination, and balance as the years go by. For instance, there is a six-mile hike up in Venango County that requires an extended, steep uphill climb, and I use that challenging ascension each Spring as an evaluation of my cardio-vascular fitness. At least once a year, I like to get out on my cross-country skis and also visit an indoor rink to lace up my hockey skates, both which require coordination and overcoming the fear of potential injury, if you happen to fall. So, when my sister Gayle reached out to me and asked if I would be willing to ride with her on Harrisburg's 2026 Tour de Belt on June 7, I accepted the challenge, since I was due for an extended bike ride to test my fitness and balance.

Now, I know the expression is "It's like riding a bicycle," and it refers to any ingrained skill that you easily and automatically remember how to do, no matter how long it has been since you practiced it. But, there eventually comes a point when you can no longer ride a bicycle, if you don't try every now and then. (An informal survey of family and friends revealed numerous individuals from their 40's to their 70's, who haven't ridden a bicycle in ten or more years.) I don't want to be one of those people for several more decades, so to prepare for the Tour de Belt on June 7, I hit our local rails-to-trails projects to get in some miles beforehand. From my experience, the limiting factor is getting one's backside conditioned to extended time on a bicycle seat and not the physical exertion of continuous peddling. (Here's a tip, get yourself a gel-filled bicycle seat cover and you'll be a lot more comfortable after the first hour.) My final training rides included an out-and-back 12.3-mile excursion on the Stavich Bike Trail on Sat., May 30, on my hybrid bike and a 22.1-mile trek on the MetroParks Bikeway from Niles down to Canfield and back on my road bike on Mon., June 1. After those rides, I knew I was ready for Harrisburg.

The Tour de Belt is an annual bike ride sponsored by the Capital Area Greenbelt Association. They are the proponents and caretakers of the 20-mile Greenbelt around Harrisburg, an interconnected network of parks and paved/cinder trails that circle the city and neighboring municipalities. The ride begins and ends at Harrisburg Area Com-

munity College (HACC), which is just north of the PA Farm Show Complex, where the PA Farm Show (every January) and the Great American Outdoor Show (every February) are held. I met Gayle at 8:40 AM and we were scheduled for the 9:20 AM start.

The first group went out on the course at 9 AM and subsequent groups went out every ten minutes. We were two of 758 riders who participated in the 2026 Tour de Belt. We were told this year's course would be only 18-miles, since an ongoing construction project by PennDot's State Headquarters had a portion of the Greenbelt blocked off.

I've done many organized rides, runs, and walks over the years, but the Tour de Belt had one of the most original and interesting displays right after the start point. It was a chronological display of each year's commemorative T-shirt proudly displayed going back to the very first Tour de Belt bike ride in 2001.

We started off heading north under Interstate 81, past Wildwood Park, and the industrial/railroad area. The bridge on Linglestown Road took us westward over US-22 and then through an extensive residential area before finally putting us on the bike trail along the Susquehanna River for several miles. We had the river and a scenic view of nature to our right and the vast varied architecture of PA's Capital City to our left. Finally, after passing the Harrisburg low-head dam and going under Interstate 83, we broke away from the river. The bike path followed meandering Spring Creek for several miles as we traveled through neighborhoods I wasn't familiar with. A team of 90 volunteers and many police officers from Harrisburg, Susquehanna Twp, Swatara Twp, Paxtang, and Penbrook kept us safe on the assorted road crossings. The steepest climb took us up to the grounds of the National Civil War Museum at Reservoir Park. From there it was mostly downhill on trails through residential areas and past numerous PennDot facilities, until we finally went through a pedestrian tunnel to access the PA Farm Show grounds and pedaled the final mile to the finish line. Gayle and I completed our scenic 18-mile ride around Harrisburg in one hour and 40 minutes. We had our photo taken at the finish line and enjoyed the post ride festivities for a while, before making our extended drives home. The Tour de Belt gave me a greater appreciation for our State Capital and its many neighborhoods. If you are a bike rider, the 2027 Tour de Belt is anticipated to be Sunday, June 6. Maybe you'll want to explore our PA Capital by bike too!

God Bless, Be Safe, and Great Outdoors!

God's Provided Protection

Put on the full armor of God,
so that you can take your stand. Ephesians 6:11
READ Ephesians 6:10-18

My wife and I put hundreds of miles on our bikes each year, pedaling the trails around West Michigan. To enhance the experience, we have some accessories that we've attached to our bikes. Sue has a front light, a back light, an odometer, and a bike lock. My bike has a water-bottle holder. In reality, we could ride our route successfully every day and rack up all those miles without the extras. They're helpful but optional.

In the book of Ephesians, the apostle Paul writes about another set of accessories—but these aren't optional. He said we must "put on" these things to be successful in living out our faith in Jesus. Our lives aren't easy rides. We're in a battle in which we must "stand against the devil's schemes" (6:11), so we must be well equipped.

Without the wisdom of Scripture, we can be swayed to accept error. Without Jesus helping us live out His "truth," we'll give in to lies (v. 14). Without the "gospel," we'll have no "peace" (v. 15). Without the "faith" shielding us, we'll succumb to doubt (v. 16). Our "salvation" and the Holy Spirit anchor us to live well for God (v. 17). This is our armor.

How vital that we travel the pathways of life protected from its real dangers. We do that when Christ equips us for the challenges along the way—when we "put on" the armor God provides.

By Dave Branon

REFLECT and PRAY
What does it mean for you to "put on" God's armor? What situations are you facing that require His armor the most?

Dear Father, thank You for reminding me in Scripture how I can stand against Satan's attacks.

Strange But True
by Lucie Winborne

- Egyptians used vast amounts of linen to mummify a body – in fact, the fabric on one mummy from the 11th dynasty measured 9,095 feet, enough to cover three tennis courts.
- Thought for the Day: "I have seen what a laugh can do. It can transform almost unbearable tears into something bearable, even hopeful." – Bob Hope
- Wakes were originally held in case the apparently deceased returned to life.
- During the 18th and 19th centuries, many British and American newspapers featured elegies for dead pets. Among them, one scholar found six for monkeys, 12 for canaries, 17 for cats and 53 for dogs. ©2026 King Features

Favorite Irish Blessing:
May the lilt of Irish laughter lighten every load. May the mist of Irish magic shorten every road. May you taste the sweetest pleasures that fortune ere bestowed. And may all your friends remember all the favors you are owed!

Now Here's A Tip
by JoAnn Derson

- You can use a clean paper milk carton to pour batter for pancakes. The spout makes it easy to pour and reduces splatter.
- You can sharpen scissors by cutting folded aluminum foil into small strips.

Attention Hearing Aid Wearers!

Are you asking the question, "Are my hearing aids compatible with the latest Bluetooth technology called **Auracast?**" If you purchased hearing aids at my practice you more than likely have this feature so it may just need activated.

Is AI important? AI is all about hearing conversations and not being interrupted by all the background noise. Whatever the situation may be our office will advise you on what is necessary to be up to date with this fantastic new technology.

Take the time to understand about Hearing and Hearing Aids

- **Clothing & Boot Allowance**

Founded in 1910, ELLWOOD Group began as a producer of high-quality steel and has grown into a trusted maker of crankshafts used around the world.

We build heavy-duty cranks that keep equipment running every day.

We start by melting and refining our own steel, then forge crankshafts to shape using powerful presses. From there, each crank is carefully machined and inspected to meet exact requirements. Our crankshafts are used in tractors, locomotives, pumps, compressors, ships, power generation equipment, and military vehicles like tanks.

For more than 100 years, ELLWOOD has been built on hard work, craftsmanship, and doing the job right—values we continue to pass on to the next generation.

• “For the summer I fill a gym-size duffel bag with “spontaneity supplies” and keep it in the trunk of my car. It includes swimsuits for all family members, a blanket and cups, plates and silverware for a picnic. Now, if we find we have some unexpected free time, we can go to the beach or pool, or have a picnic by just picking up some sandwich supplies from the closest grocery store!” – via e-mail

Now Here's A Tip

by JoAnn Derson

• “The best way to get a bloodstain out of clothing is by dousing the stain with hydrogen peroxide and washing as usual. For clay stains, you absolutely must have a Fels-Naptha bar. It looks like a bar of soap, and you wet the material and rub in the soap. It's magical. This, coming from a softball mom whose daughter loves to slide.” – A.A. in Florida

• “I have stained coffee cups. My hands have arthritis, and it's hard to wash them by hand. A young woman at church suggested I purchase a small bottle of dishwasher soap. The kind you put in a dishwasher, even though I don't have one. I squirt a little in the cup and add hot water. It sits while I wash up the other dishes and then swishes right out.” – T.T. in Missouri
